BOND SERIES: SERIES B

PAGE NO. 4-1985B

Bond Call Information:

Special Redemption

The 1985 Series B bonds may be redeemed in whole or in part (by lot if within a single maturity except that the 1985 Series B Resolution provides for redemption other than by lot with respect to the 2010 Term Bonds as discussed below) on any date at the principal amount thereof plus accrued interest to the date of redemption, or in the case of the municipal multiplier bonds at the compounded amount from:

- (i) unexpended proceeds of bonds,
- (ii) excess revenues transferred from the revenue reserve fund,
- (iii) prepayments of mortgage loans purchased with the proceeds of sale of bonds or moneys derived therefrom, and
- (iv) moneys withdrawn from the debt service fund pursuant to a decrease in the debt service reserve requirement caused by a special redemption of Bonds.

Moneys referred to in clauses (ii) and (iii) will be applied to the redemption of municipal multiplier term bonds only after all other bonds have been redeemed.

Prepayments of mortgage loans financed with the proceeds of the 1985 Series B bonds shall be applied to the redemption of the 2009 Term bonds, during the period and up to the respective amounts for each year set forth in the series resolution.

Following the redemption of all of the 2009 Term bonds, prepayments shall then be applied to purchase or redeem the 2010 Term bonds during the periods and in the amounts set forth in the series resolution.

Moneys to be applied to a redemption from prepayments in excess of the scheduled amounts shall be applied pro rata, except the municipal multiplier bonds will be called last. The Agency may call bonds on other than a pro rata basis if the Agency files a notice with the trustee together with a cash flow certificate.

Optional Redemption

The 1985 Series B current interest paying serial and term bonds are redeemable at the option the Agency on or after September 1, 1995 either as a whole, on any date, or in part (by lot if within a single maturity), on any interest payment, at the following redemption prices expressed as a percentage, plus accrued interest to the date of redemption:
